GARAGE TILES
12 TILE PACKS

CASTLE
INNOVATIVE CONCRETE ACCESSORIES

100% RECYCLED

EASY INTERLOCK DESIGN

"Easy to install, incredibly durable, and looks great. What more could I ask for?"
– Hawke's Bay homeowner

Transforming spaces **with industrial-grade interlocking tiles.**

Effortlessly tailor these versatile tiles to fit your unique space. Proudly made in New Zealand from recycled plastic container seals, the Castle interlocking system ensures a seamless, snug fit without the need for adhesives, while maintaining a 5mm expansion gap around the perimeter.

Designed to withstand the harsh conditions of garages and workshops, these tiles are movable, reusable, and engineered for resilience. Each tile features an anti-slip design and robust resistance against oils, grease, and impacts. At 5mm thick, they provide a quick, effective makeover for any tired surface.

Perfect For:
Garages, workshops, factories and warehouses
plus MUCH MORE!
